A bit of history, a dose of unusual encounters, nice bodyworks... such are the ingredients making up the success of this event, which, over the years, has become one of the most important gatherings of vintage cars in the North-East area of France.

Sharing and conviviality are the key words, more than 400 vehicles over 35 years of age gather to create a great parade of chromium and gleaming bodyworks, closing this weekend of festivities. From the extravagant chauffeur-driven car to the antique fire truck, to the popular « young timer », all the story of automobiles can be found here, for the delight of all, both young and old.
